

London, September 2019

EUROPCAR MOBILITY GROUP UK CREATES NEW ROLE OF UK VAN & TRUCK DIRECTOR

Europcar Mobility Group UK, a major player in mobility markets, has announced the creation of a new senior role in the business – UK Van & Truck Director – reporting direct to UK Managing Director, Gary Smith. This new position reflects the increased focus the business is putting on the provision of commercial vehicle solutions for its customers.

David Saint, previously Van & Truck Director at Europcar Mobility Group Germany, has been appointed to the new role. With extensive experience in the van rental sector, David will be looking at strategies to ensure the Europcar Mobility Group remains the leading provider of sustainable commercial vehicle solutions for UK businesses. He will be responsible for expanding initiatives such as the UK Van Supersite network, as well as looking at future schemes to help UK businesses meet the Government's emissions objectives.

Before joining Europcar Mobility Group Germany, David worked for other businesses in the commercial vehicle sector, as well as other automotive organisations. Most recently, he was responsible for the Commercial Vehicle business unit and strategy within Europcar Mobility Group Germany, and as the Group's former European Fleet & Operations Manager, he worked within the International Van & Truck Business Unit, with a focus on fleet, operations and network.

“With the change in the UK economy, and the Government’s push to end the sale of new petrol and diesel cars and vans by 2040, the industry will be seeing some major transformations,” said David Saint. “Add to this the burgeoning logistics marketplace and growing gig economy changing the way the van rental industry operates, it’s clear that future business mobility will require some imaginative thinking. It’s exciting times!”

Gary Smith, Managing Director of Europcar Mobility Group UK added: “We are delighted David is heading up our Van & Truck division in the UK. He has an enviable knowledge of the industry and we’re very much looking forward to help UK businesses navigate through the range of challenges in the coming years.”
