Van Hire Specialist, Europcar, has opened its second location offering commercial vehicle rental in Scotland. Responding to demand from Scottish businesses, the new site in Lancefield Quay caters for the needs of businesses using Vans in the West of the country.

With the Scottish Chambers of Commerce Quarterly Economic Indicator survey¹ finding broadly improving business confidence and revenue indicators across most sectors, easy to access, specialist vehicles to support local business activity are vital.

Europcar has offered commercial vehicle rental from its Edinburgh Supersite since 2014. Responding to the popularity of this station as well as a growing demand from businesses in the West of Scotland, the launch of a second specialist Van centre shows Europcar's commitment to the region.

Recognising the diverse range of businesses in the area, the Lancefield Quay station offers an equally diverse range of commercial vehicles. A range of short and long wheelbase vans are available, alongside specialist vehicles, including Chapter 8 equipped vehicles, crew vans and 4x4 pick-ups. And van specialists work with businesses from across Scotland to ensure that the right vehicles are available at the right time and in the right place for all their transportation needs.

Stuart Russell, Director, Commercial Vehicles, Europcar Mobility Group in the UK, commented “The tailored service and knowledge available in our Edinburgh station has already made it incredibly popular. Identifying that businesses were coming from all over Scotland to access the specialist expertise and range of vans, it made sense to open a site with a focus on vans in Glasgow too.

Not only do we offer a wide range of vehicles, ready to rent within 4 hours, but our commercial vehicle experts can help businesses identify the right vehicle for the job, every time.”
