Nationwide Windscreen Services adds Europcar to its client portfolio

Leading UK automotive glazing company Nationwide Windscreen Services (NWS), has secured a contract to provide Advanced Driver-Assistance Systems (ADAS) Calibration and Vehicle Glass Repair and Replacement (VGRR) services for customers of Europcar Mobility Group UK.

The contract will see NWS assist Europcar customers across the UK and Northern Ireland 24 hours a day, seven days a week either at the customer's home or business location or at one of the NWS fitting centres around the country.

The contract with Europcar is the latest for NWS as it extends its services in the vehicle rental marketplace. Andy Hodge, Sales Director at NWS, says: "We're delighted to be working with Europcar to provide VGRR and ADAS Calibration services to any driver or station needing assistance. We have a wealth of experience working with vehicle rental companies and we're thrilled to have such a well-known global brand as one of our clients.

"We worked closely with Europcar to ensure a smooth onboarding and we have already assisted many drivers across our extensive network of branches."

Ron Santiago, Managing Director, Europcar Mobility Group UK added: "First and foremost we want to provide our customers with the smoothest journey. It's crucial, therefore, that should they experience a damaged windscreen while using one of our vehicles we can help them get this resolved as quickly as possible. The partnership with NWS provides national coverage with expert technicians, giving our customers peace of mind that if they have a windscreen issue it will be dealt with expertly and efficiently."

Nationwide Windscreen Services operates throughout the UK and offers a 24 hour, seven days a week windscreen and body glass replacement service. For more information visit natwin.co.uk.
