## **58% of Scottish motorists want a 'try before you buy' EV experience**

### **Europcar insight reveals drivers want a taste of the electric vehicle lifestyle before they commit**

As sustainable travel grows in popularity, research commissioned by Europcar has found that nearly 6 in 10<sup>1</sup> people in Scotland would like to try out electric motoring before making a long-term financial commitment. Those with children still living at home were the biggest group saying they wanted a 'try before you buy' experience before making the switch at 64%.

It is predicted that by 2050<sup>2</sup> nearly 70% of the world's population will be living in towns and cities. Creating easy access to electric motoring to reduce reliance on fossil fuels is therefore essential. Edinburgh was named by ICAS<sup>3</sup> the 16th most sustainable city in the world, transitioning to greener travel is clearly the way to go. The challenge is how motorists can gain real-world experiences to understand how they will need to adapt to electrified motoring.

In response, Europcar has added the Tesla Model 3 to its fleet, giving local residents and businesses as well as visitors to Edinburgh easy access to electric vehicle rental. Available from Edinburgh Airport or from the centrally located St James Quarter locations, with charging on the Tesla Supercharging network inclusive with short term hires of 1-27 days. Customers are provided detailed vehicle handover and provision of supporting [customer information](#) for a seamless commitment-free electric motoring experience.

Mark Newberry, Europcar Mobility Group UK Commercial Director and Sustainability spokesperson commented: "It is going to take time for motorists to transition to electric vehicles, especially when you look at current availability and cost. Providing drivers with a real-world experience, Europcar has now added several electric and hybrid models to our fleet, with the Tesla Model 3 being the latest addition.

### About Europcar Mobility Group

Europcar Mobility Group is a major player in mobility markets. Relying on its long-term purpose - to offer attractive alternatives to vehicle ownership, in a responsible and sustainable manner, its ambition is to become a leader in sustainable mobility driven by technology, data and people in the years to come.

With this in mind, the Group offers a wide range of car and van rental services – be it for a few hours, a few days, a week, a month or more – with a fleet equipped with the latest engines, and which will be increasingly "green" by the end of 2024 and onwards.

Customers' satisfaction is at the heart of the Group's ambition and that of its employees. It also fuels the ongoing development of new offerings in the Group's three business lines - Professional, Leisure and Proximity - which respond to the specific needs and use cases of both businesses and individuals.

The Group's 4 major brands are: Europcar® - the European leader of car rental and light commercial vehicle rental, Goldcar® - the lowcost car rental Leader in Europe, InterRent® – 'mid-tier' car rental and Ubeeqo® – one of the European leaders of roundtrip car-sharing (BtoB, BtoC).

Europcar Mobility Group delivers its mobility solutions worldwide through an extensive network in over 140 countries (including wholly owned subsidiaries – 18 in Europe, 1 in the USA, 2 in Australia and New Zealand – completed by franchises and partners).
