

WHY CHOOSE FLEX+?

At Europcar, we understand that maintaining a fleet that keeps up with ever changing business needs can be challenging. Now, more than ever, businesses require a flexible solution that can adapt in line with demand and keep their workforce mobile when needed but not incur costs when it's not.

Flex+ by Europcar provides the flexibility they need to keep their business on the road to success – with rental periods of 3 months plus, no deposit or upfront payment, no long term commitments and no early termination charges should needs change.

Flex+ is the perfect solution when there is a need to provide a vehicle to temporary or probationary staff, top up existing fleet due to a peak in demand, support project or temporary work or when there is simply a need for a more flexible solution to typical contract hire or leasing arrangements.

What's more, as we only supply brand new vehicles, your customers can be sure of benefitting from the latest safety and emissions standards to support duty of care for both their employees and the environment.

Flex+, giving businesses that little bit extra!
